Honorable Shelley C. Chapman,

I am writing to you concerning the Patriot Bankruptcy which is to be held in New York.

I am asking for you to consider moving the case to Charleston, WV where it rightfully belongs.

I am a diabetic which requires numerous medications. My wife is also a diabetic which requires numerous medications.

I have had open-heart 4-bypass surgery for which I also require medication.

I have black lung for which I use oxygen 4 liters - 24 hrs daily. I have and need medications for my lungs.

If I lost my health care it would come to the point where I could not pay for them. I would hate to think what would happen if I did lose my health care.

I worked in the mines over 20 years. I feel all miners deserve their health care in their retirement, old age ~~years~~ years. Thank you.

and the UMW A.  
May God Bless you

Sincerely  
Sherman & Raymond Bailey
