

Honorable Shelley Chapman

My name is Howard J. Enitto  
I have worked in the coal mines  
of Southern Ill for 23 yrs. It is a  
physically demanding and very  
dangerous job. In my career I have  
had 5 discs taken out in my back,  
both knees have been damaged and  
lost most of my left small finger.  
All in the faithful performance of  
my job.

I've currently had 3 heart attacks  
and open heart surgery, high blood  
pressure and various other ailments.  
My wife has had a heart attack, diabetes,  
and a pace maker.

Without insurance we are both in  
serious trouble. We are on a very  
skinny fixed budget and cannot afford  
to buy supplemental insurance.  
We are not asking for anything extra  
only what we have been promised  
and what I sacrificed my health for

Truly  
Howard J. Enitto
