

The Honorable Shelley C. Chapman,

We know that there are alot of Coal Miners that have worse problems than we do. But I don't know what we would do without our Pension + Insurance. My husband (David) was told quite a few years back that he has black lung. He also has alot of ~~osteo~~ arthritis.

I have scoliosis (curve in my spine,) I also have osteoarthritis + osteoporosis (weak bones) I have to take quite a bit of medicines. I just don't know what we would do ~~with~~ without my husbands Pension + Insurance.

I really don't think that it is fair that Patriot wants to take every thing away.

There are alot of UMW A Members out there that are counting on you.
