I cannot work now and hold any job. I have so many complications. I have High Blood Pressure alot of that is from pain in my body! I'm a diabetic I have Back issue - 2 Hernia disk, 1 - Bulging. when I am down in Back. I have to depend on my family totally, you lose part of your dignity when you can't do anything for yourself.

I was so blessed to have a job with Peabody (now Patriot Coal) for 2 1/2 years. They help us support our children. Pay off our home. I worked 6 days a week. Mandatory (Back then) I worked towards a retirement plan with insurance benefits. and a pension. My Husband is a self employed siding applicator no benefits.
