

The Honorable Shelley C. Chapman,

I, James J. Lovejoy worked for 35 years for Big Mountain Coal Co., Arm Co. Steel, Peabody, Pine Ridge. I worked for these with the Promise, Signed promise and word.

The UMWa Contract was a legal contract for miners, Signed by the Company.

With lawyers this is a legal and binding Contract. I need my pension and my health care as I was promised. My wife needs health care also.

My co workers need their pension and benefits also. I worked my hours and many overtime hours and days. This helped make this Company what it is or was. Now the Company wants to renig on all it's promises made.

No, these benefits made are mine I, along with my co workers worked for them.

These benefits, pensions and health care belong to each of us.

Coal is needed for this country.

Please, Your Honor, I'm asking Please keep us on your mind and agenda.

Companies can't keep getting away with hurting people. A promise is something you keep.

Thank you!
James J. Lovejoy
