

I Am a Debitic, Pills an two shots a day. I have heart trouble, I have a Pacemaker, I also take Medicion. For My Heart. I have high blood Pressure an take Medicion for this. When I started work for Peabody we had a contract that stated, we work for a Health card, an a Pension. We were told for ever how we worked Peabody Put Money back for our Retirement.

Judge Chapman I can't afford to lose My Retirement an Health card with all the medicine I have to have. Plus the cost of living keeps going up.

I started with Peabody and Retired with Peabody. I never even worked for Patriot Coal Co. But there should be fairness at Patriot.

Judge Shelby Chapman I hope you look in your Heart and see what the Coal Miners have had to fight for many of years.

May God Bless you.

Sincerely Douglas A Dean

Dear Judge Shelley C. Chapman.

I am writing to you on the behalf of My Retirement, with Peabody Coal Co. I started work for Peabody in 1974, and had to retire in the year 2000, because of a bad injury causing me to be disabled. I hit my head on a rail, causing me to jam my neck back, it made a crunching sound to me.

I fill like I have given Peabody Coal Co. over a hundred percent ever day that I've worked for them: I gave them blood, sweat, and tears, and my health. I worked at the face of the coal, after they take out the coal, my job was to put up roof bolts to support the top. The work that I perform is a real dusty job. Now working in this much dust, I have what they call, Black Lung. I now see a lung doctor at Owensboro Ky, and go to the Coal Miners Clinic in Greenville Ky, they test me ever year, to see how worse my lungs are getting, it is getting worse, my breathing is down to 62 percent. The doctor has give me two different kinds of inhalers.

3.

Name of Medication	Times a Day
Symbicort 80/4.5	2 Puffs AM 2 Puffs PM
