

To Whom it may concern,

My name is Micki Church I live in Linton Indiana. My husband was a United Mine Worker for several years before he died he was glad he had left me with good medical insurance.

For several years I have lived with chronic rheumatoid aortitis and later developed chronic kyphoscoliosis and chronic osteoporosis for this disease I am now on a medication which if it were not for my UMWA insurance I could not be on.

Over the years I have had 3 back surgeries, worn a halo vest and surgery on top of spine, both hips replaced (corrective surgery yrs later on left hip), both knees replaced, both elbows replaced and left wrist replaced, surgery on right wrist I have had to have 2 foot of colon removed, cancer removed from colon, breast surgery and been in hospital several times due to merca and another staph infection without my health insurance through Patriot Coal I would be dead.

They promised the miners they would have health insurance till they and their spouse died I am asking you to PLEASE see that they keep this promise.

Thank you sincerely,
