

To the honorable Kathy A Surratt-States:

I am writing you in regards to the UMWA/Patriot Coal insurance conflict. This would be a terrible blow to us and many more retired coal miners. We are, for the most part all in our 60's. We have had insurance coverage all of our working life. To be without it now would be a devastating blow. My husband is going to be 66 years old in May. He is diabetic, has high blood pressure, has had heart surgery, has his colon removed and was most recently diagnosed with leukemia. He also has rhumatoid arthritis and suffered from that for many years. I cannot imagine what doing without medical insurance would do to us financially. This is so very unfair. This is just a big business ploy to relieve themselves of financial responsibility. They merely want to invest money in other areas without any concern to the coal miners. This is something that should not be allowed to be done in this United States of America. Thank You very much for your time.

Yours Very Truly

The Leslie Family
