The Honorable Kathy A. Surrant-States

Re: Case No. 12-51502

I cant believe its necessary for me to write a letter telling how important it is for us to continue having our health insurance, that was promised to us till we no longer exist my husband worked very hard and was very dedicated to a job that meant nothing to the owners. He even got black lung working for these coroporate people who some have never been inside a mine.

My husband was diagnosed with Colon and Rectal Cancer in 2008. He took 2 weeks Chemo and 28 straight days of Radiation. Without insurance he would have died because we could never afford to get these treatments . In January 2009 they operated on him and had to remove most of colon and the rectum. They did a Colonoscopy and he now has a bag on the outside which he has to have equitment for this daily, which is very expensive.and by the way he returned to work after this and worked with condition for two years, that's what I call dedication.

In 2006 they put him on oxygen at night time, in 2009 wanted him to go on oxygen 24/7 but he wouldn't because he wanted to work, dedication again.

In 2011 he had a hip replacement.

In 2011 he also had Gull Bladder surgery.

He is now on oxygen 24/7 which is also expensive

Since 2009 he has had 4 surgeries due to his cancer plus the other two surgeries and who knows when the next time will come up and if we don't have insurance, what will happen?

He takes several medicines every day, which could not afford with out insurance

My husband is James Wilson Sr. DOB-04 07 1946.

I am his wife Myrtle Wilson DOB-09 25 1946. I have RA,Diabetis, and High Blood Pressure, so needless to say I am on several meds also which could not afford without insurance James and Myrtle Wilson
