

Mr and Mrs William Eaves
190 Carbondale Road
Madisonville, KY 42431

I am a male, sixty nine years old. I started work at Peabody Coal Company in 1970. In the year 2000 I had a massive stroke that affected my left side very bad. I had to have surgery on my right carotid artery, five weeks later I had to have surgery on the left artery. I was off work for five months with the help of medication and therapy I went back to work for a short time, then the doctor was afraid I would get hurt or hurt someone else. I haven't worked since September of 2001. I have had numerous falls and had to have CT scans to determine if there was any bleeding present. Since that time I had gall bladder surgery and hernia surgery on my right side. I had a stroke and fell and at that time I broke the clavicle in my right shoulder. I have had pancreatitis twice. With all of this going on I only have less than half of my normal kidney functions. My right carotid artery is 100% blocked at the present time. About three years ago I was told that I have Parkinson's disease. I have tremors on my left side to the point that if I can't sit down I will fall. I cannot walk without my walker. I now have a wheelchair if I have to go very far. I have high blood pressure, thyroid problems, and neuropathy in my feet and legs. My wife has to have both knees joints replaced, gall bladder surgery, and is scheduled to have laser surgery on both eyes. I have worked very hard to get what we have now I hope you can see fit to let us continue to keep the benefits in the contract we retired under. We will deeply appreciate it very much. Thank you very much.

William H. Eaves
