

I live close enough to wire the 6360 was constructed when they dug the first bucket of dirt! I could hear those big bucket doors close. Both a big bank, the

was music to my ears. The bucket cables were not connected to the bucket yet. I could see it swing back and forth to replace the dirt. Thank you for these memories

Case # 12-51502

What word can I use? Except Please HELP the U M W of America! My husband and I are grateful that we were a part of "Arch of Ill." Him and his Co. workers were, and are proud to say we work for "Arch"

Now your company, "They all helped to grow and Prosper," Has forgotten about us and want to throw us out into a big and lonely field! letting us try to survive without what you Promised us. "A mans word is his pride,"

Please don't take our "Health Care and Pension" away, We need it to "Endure" - "last with dignity"

How great it would be to hear you say! "We do remember" when the U M W a workers made you big and strong.
