

Honorable Shelley Chapman,

I am a retired coal miner of 40 years.
I am 65 retired at 62. I have diabetes,
neuropathy in legs & hands, glaucoma, arthritis,
and heart problems. To lose my pension or
health card would be tragic for me and
my wife, who is in very poor health and
legally blind. We would be forced to give
up our home and move in with one of our
children out of the state.

Please consider what this would do to
thousands of families.

Respectfully
Mayburr L. Woodrum
Wharton, WV
