2541 Huff Creek Rd.
Cyclone, W.V. 24827

I would like to let you know what is at stake for my family on the decision you make for them on our health care. I have had a disc take out of my neck because of running my head in the top. A fused neck that hurts 7-24. Like a good employie I never filled out accident reports for 37 years. Now high blood pressure just to name a few things.

My wife life and mine and my handicapped daughter that is in a wheel chair for 34 years depends on your decision till death do us part is what Federal Government premiss my family for 37 years of keeping the lights

I feel sorry for you to have to make a decision on so many peoples life ~~but~~ but I pray to God you make the right one. Our life depends on it.

Make the right decision for hard working people
Wannis Daniels
