

Honorable Shelley C. Chapman,

I'm writing on behalf of my father, Foster Yorkum. He is a retired coal miner and worked hard his whole life. I walked in today and caught him crying. He is so worried about this issue with the benefits. He has been going thru prostate cancer and got a pacemaker. We lost my mother in January and this has been depressing about that and ~~and~~ now another burden on him. Please on please don't let them lose their benefits. Its so hard now I can't imagine how its gonna be if ~~if~~ he has none. Thank you for your time.

Sincerely

Karin Duddleston
daughter of Foster Yorkum
