

We do not remember being so worried and scared. My husband has 25 yrs. in the mines. but the contract he fell under his pension is only 305.⁰⁰ a month & our 55 cks. But this has been OK. We can pay our bills but if we have no ins. we can not make it because we are both in bad health. My husband has a bad heart & had surgery. He also has black lung. He has rheumatoid arthritis & osteoarthritis. He has skin cancer and goes to the dr. for this over 4 mo.

I worked on an assembly line for 12 yrs. Hard work with heavy lifting. I have had back surgery. surgery on both my wrist 5 surgery with a total new shoulder, osteoarthritis all over, my big toes hurt so bad I have a hard time walking.

He always felt lucky with our jobs knowing we were going to help with our health ins. when the time came. He are 66½ + 69½ age I have had knee replacements too.

Please help us keep our pride & know we never abuse it in any way. He could have no Rx's if we loose our ins. Some of them are 200.⁰⁰ + 300.⁰⁰ for a month.

I feel we have worked hard for it. You don't find jobs at almost 67 + 70 old.

I thank you for your time

Hubert & Alice Boyken
